2023 **ICFAI foundation for higher education**
Hyderabad, India

2021 – 2023 **Sri Chaitanya Junior College**
Hyderabad, India

2021 **Sri Chaitanya School**
Hyderabad, India

Skills

Software skills

Microsoft word and PowerPoint

Programming skills

Java and python

Web development

HTML, CSS and JavaScript

Database management

SQL

Soft skills

Leadership , teamwork , communication skills

Graphic Design

Autocad and Canva

Projects

E-commerce website

Created a fully operational e-commerce site customized for a floral business. The frontend was developed with HTML and Bootstrap to ensure a responsive and user-friendly experience. For the backend, Python Flask was utilized alongside MySQL to manage data efficiently. Incorporated LLMS (Language Learning Models/Language Models, depending on your exact use) to improve features such as intelligent search and chat-based customer assistance. The platform facilitates product browsing, cart management, order placement through WhatsApp, and includes a secure admin panel for overseeing products and users.
